

Dear Colleagues,

Peter the Great St. Petersburg Polytechnic University is announcing the 4th Polytechnic Conference on Plasma and Fusion (PCPF-2023) organized in partnership with Ioffe Institute. The conference will be held in Saint Petersburg, Russia, on July 10-14, 2023.

The conference is a platform for communication among young and senior researchers in the field of high-temperature plasma physics and controlled nuclear fusion. The programme committee welcomes presentations on the progress in original research activities as well as comprehensive overviews.

We would like to invite you to give a talk in one of the sessions. Time slots of 15, 30 and 45 minutes are available. The conference will be organized in a hybrid on-site and online format. A full conference program will be made available as soon as we have a confirmed list of speakers.

We truly hope you can accept our invitation and contribute to this exciting conference.

Yours sincerely, the Programme Committee,

Pavel Goncharov (Peter the Great St. Petersburg Polytechnic University, Russia)

Alexander Yashin (Peter the Great St. Petersburg Polytechnic University, Russia)

Vladimir Rozhansky (Peter the Great St. Petersburg Polytechnic University, Russia)
